1 INTRODUCTION

Awards for Programs that Enhance Learning recognise learning and teaching programs and services that make innovative and outstanding contributions to student learning outcomes and the quality of the student experience. They are awarded to programs and services that have set high standards for learning and teaching activities in Australian higher education institutions.

Awards for Programs that Enhance Learning (Program Awards)	4	Up to 4	2	\$15,000

In 2021, up to four Program Awards will be granted across all categories, although the pattern of distribution will ultimately be determined by the quality of nominations.

Eligible institutions can submit a maximum of two team submissions across all categories. Nominees may be included in only one Program Award nomination in any year, except if a nominee forms part of a team nomination and is not the lead nominee.

1.2 ELIGIBILITY

Nomination is open to all programs and services that enhance student learning in higher education. Nominations must be supported by the nominating institution (refer to eligible institutions in [Table A](#) and [Table B](#)).

Programs should be broader than one or two subjects, or a limited service that involves only a few students. For example, programs may involve a service or program provided at the institutional, faculty or school level, a program of study across number of years, or a service or program directed at particular groups of students.

1.2.1 TEAM NOMINATION

Since 2020, Program Awards are open to team nominations only. Team nominations can only include members with a contribution of 10 per cent or higher. This means that the maximum number of team members is 10.

In some circumstances a team member(s) for a program award may not be employed by the nominating institution. This is acceptable provided the program is a program or service at the eligible institution that enhances student learning, and the team lead and majority of team members are employed by the nominating institution. The funding for program award recipients is provided to the nominating institution, and all team members should be aware of this upon nominating.

1.2.2 ELIGIBILITY OF PAST RECIPIENTS OF AWARDS OR CITATIONS

Programs that have received a Program Award previously are ineligible for renomination.

Past recipients of a Teaching or Program Award (including Carrick Award, ALTC Award or OLT Award) can only renominate if they form part of a team nomination and are not the lead nominee. The new nomination should not substantially replicate the original nomination.

Nomination or receipt of a Citation does not affect eligibility for a Program Award.

2 CATEGORIES

Nominees must select the relevant program category below.

2.1 STUDENT EXPERIENCE THAT SUPPORTS DIVERSITY AND INCLUSIVE PRACTICES.

This category encompasses:

- Services directly related to student learning for specific groups of students, that promote participation, information access, course advising, language support, counselling and/or disability support.

2.2 COLLABORATION EDUCATIONAL PARTNERSHIPS IN LEARNING AND TEACHING.

This category encompasses:

- Internal partnerships related to teaching quality and student learning, such as between schools/faculties and central services.
- External partnerships between universities, and/or other organisations—such as schools, private higher education providers, registered training organisations, professional bodies, businesses, government and Not-For-Profit Organisations in collaborative approaches to learning and teaching.

2.3 CURRICULUM TRANSFORMATION AND INNOVATIVE PEDAGOGY.

3 ASSESSMENT CRITERIA

All nominations will be assessed on the evidence provided in response to the following four criteria which will be given equal consideration by the assessors:

3.1 DISTINCTIVENESS, COHERENCE AND CLARITY OF PURPOSE

Extent to which the program has clear objectives and systematic approaches to coordination, implementation and evaluation.

3.2 INFLUENCE ON STUDENT LEARNING AND THE STUDENT EXPERIENCE

Extent to which the program targets identified needs and directly or indirectly enhances student learning, student engagement and/or the overall student experience of higher education.

3.3 BREADTH OF IMPACT

Extent to which the program has led to widespread benefits for students, staff, the institution, and/or other institutions, consistent with the purpose of the program.

3.4 ADDRESSING EQUITY AND DIVERSITY

Extent to which the program promotes and supports equity and inclusiveness by improving access, participation and outcomes for diverse student groups.

EVIDENCING YOUR CONTRIBUTION

In addressing the above criteria, applicants are required to make a case that they have:

- a. Positively impacted on student learning, student engagement or the overall student experience for a period of no less than three years (two years for early career), not including time taken for development or trial of any activity.
- b. Gained recognition from colleagues, the institution, and/or the broader community.
- c. Shown creativity, imagination or innovation, irrespective of whether the approach involves traditional learning environments or technology-based developments.
- d. Drawn on the scholarly literature on teaching and learning to inform the development of initiatives, programs and/or practice.

This case needs to be **strongly supported by a diverse range of evidence**. It is recommended that the qualitative and quantitative data are from an extensive range of formal and informal sources, including nominee's self-reflection, student learning, student experience and evidence of institutional, peer and stakeholders' interactions.

Student voices, through examples and quotations, can convey a cogent account of their experiences.

Each criterion is weighted evenly.
