

Australian University	Project Title	German project lead institution
Australian Catholic University	Child slaveries in the early modern world: gender, trauma, and trafficking in transcultural perspective (1500-1800)	Universität Bonn
Australian Catholic University	Strengthening teachers' instructional capabilities with Big Data	Institute for Mathematics
The Australian National University	Historical collections as tools for quantifying the long-term effects of global anthropogenic disturbance on plant-pollinator interactions	Helmholtz Centre for Environmental Research - UFZ
The Australian National University	Understanding and engineering polysilicon based passivating contacts for photovoltaic applications	Leibniz University Hannover (LUH)
Charles Darwin University	Analysing Social Media Use during Natural Hazards: Improving Crisis Communication	Paderborn University
Curtin University	How does the quality of goal motivation influence human perception?	Westfälische Wilhelms Universität Münster (University of Munster)
Deakin University	Adaptive dynamic programming framework for smart energy systems with renewables	FernUniversität in Hagen
Deakin University	Multimodal knowledge graph system for structural health monitoring	Georg-August-University of Goettingen
Deakin University	Next generation sustainable hybrid products	German Aerospace Center (Deutsches Zentrum für Luft- und Raumfahrt - DLR)
Federation University Australia	An experimental study on the use of soil organic carbon as an indicator of soil health for mining rehabilitated and agricultural soils	Technical University of Munich (TUM)
Flinders University	The use of alternative water for agriculture, mining and aquifer replenishment	Carl von Ossietzky University of Oldenburg
Griffith University	Wafer-scale fabrication of SiC-based devices for biosensor and bioelectronics applications	Aachen University
Griffith University	Development of novel parasite selective Histone deacetylase inhibitors (HDACi) with antiplasmodial activity using a QSAR-based approach.	Heinrich-Heine University Dusseldorf
Griffith University	Effective use of highly innovative adaptive learning literacy programs in the classroom	Regensburg University
Macquarie University	Blue carbon comparisons between the Baltic and Tasman sea coastlines (BccBTc)	Universität Hamburg
Macquarie University	Perceived News, expectations and uncertainty	Leibniz University Hannover

Macquarie University	Secure Online Authentication with Attributes	CISPA Helmholtz Center for Information Security
Monash University	Unravelling the regulatory functions of NLRC5 in anti-cancer immunity	University of Hohenheim
Monash University	Evaluating the biomechanical features of lethal prostate cancer	TU Dresden
Monash University	Crystallographic Fragment Screening and Drug Design Pipelines to Tackle Anti-Infective Targets	Helmholtz-Zentrum Berlin
Queensland University of Technology	Biofabtonics - automated 3D opto-mechatronics system for cancer drug screening	Friedrich-Alexander University Erlangen-Ni.irnberg (FAU)
Queensland University of Technology	Characterizing the mechanical phenotype of tissue-specific endothelial cells and their matrix in 2D, 3D static and 3D dynamic conditions	Technical University of Dresden
Queensland University of Technology	A trust platform for a global green hydrogen supply chain	Ruhr-Universität Bochum
RMIT University	Zero carbon model for post-pandemic university campuses in Australian and Germany	Technische Universität Berlin (TUB)
Swinburne University of Technology	Next Generation Safety-Integrated and Infection-Reactive Implants by Design of Advanced Surface Engineering Architectures	Institut für Werkstoffkunde, Leibniz Universität Hannover
Swinburne University of Technology	Advanced Polymer Coatings for Enhanced Tissue Integration	Braunschweig University of Technology
The University of Adelaide	3D-printed monolithic platform towards advanced terahertz components and applications	University Duisburg-Essen
The University of Melbourne	Hydroclimate change in expanding and vulnerable desert margins	University of Tuebingen
The University of Melbourne	Optical properties of Mie-void metasurfaces and their application to sensing and imaging.	University of Stuttgart
The University of Melbourne	Creation and validation of an English version of an empathy and Theory of Mind measurement tool for adolescents: EmpaToM-Y-Engl	Technische Universität Dresden
The University of Newcastle	Understanding the Impact of the Electrolyte and Temperature on the Storage Processes of Electrochemical Capacitors (UnderCap)	Friedrich Schiller University Jena
The University of Queensland	EpiGrape: Exploring intra-varietal variation in grapevine using epigenetics	Hochschule Geisenheim University
The University of Queensland	Towards decarbonized aerobic fermentation: metabolic understanding of hydrogenase activity and its utilization for bioproduction	Technical University Munich
The University of Queensland	From Search to Synthesis: Automating the Systematic Review Creation Process	Leipzig University

The University of Queensland	Climate and social preferences: Do climate conditions causally determine social preferences?	Potsdam Institute for Climate Impact Research (PIK)
The University of Sydney	Adaptive Printable Materials from Multifunctional Inks based on Molecular Polymer Bottlebrushes	Heidelberg University
The University of Western Australia	Model study on turbulent processes in the oceanic surface layer	Institute for Baltic Sea Research Warnemuende
The University of New England	Understanding the dynamics of sickness behaviour and avoidance behaviour of broilers infected with a necrotic enteritis using computer vision and social network analysis	Freie Universität Berlin
UNSW	Directed evolution of the bacterial flagellar motor	Max Planck Institute for Terrestrial Microbiology
UNSW	Machine learning for novel design of noise control materials	Technical University of Munich
UNSW	Global Analysis of Spatio-temporal Variability in Surface Urban Heat (GAST-VIS)	Ruhr-University Bochum
UNSW	Uncovering the Galaxy's history of thermonuclear nucleosynthesis with spectroscopic surveys	Max Planck Institute for Astronomy
UNSW	Risks of compound climate extremes and impacts on agriculture, trade and fire occurrence	Helmholtz Centre for Environmental Research (UFZ)
University of South Australia	AI-based optimisation and communication in distributed satellite systems	University of Leipzig
University of Wollongong	One scale up: Developing 3D dosimetry in the microbeam field –Development and evaluation of a 3D dosimetry algorithm for integrated dose measurements in microbeam irradiation treatment fields.	University of Rostock
